OFFICE OF
AIR AND RADIATION

Ms. Twa-le Abrahamson
Air Quality Program Manager
Spokane Tribe of Indians
62-90-D Ford Wellpinit Road
PO Box 480
Wellpinit, WA 99040

Dear Ms Abrahamson:

Enclosed are the result(s) for the diffusion barrier charcoal canister(s) exposed during August 2011 and returned to EPA's Radiation and Indoor Environments National Laboratory (R&IENL) for analysis. These canisters and associated analyses support EPA's Radon Testing Program to promote radon awareness and to provide radon test kits to environmental justice partners and Tribal communities. The R&IENL's testing program is an integral component of the overall environmental justice activities being conducted by the EPA's Office of Radiation and Indoor Air in Washington, DC.

Please note that any result(s) which exceeds EPA's recommended action level of 4.0 picoCuries per liter should be confirmed with a second test.

If you have any questions regarding your results or confirmation testing, please contact Evelyn Conerly of my staff at (702) 784-8269.

Sincerely,

A handwritten signature in black ink, appearing to read "Emilio Braganza".

Emilio Braganza
